[Opening Respondent Statement]

Thank you for your participation. **Please read the following important instructions before proceeding.**

The survey will take about 20 to 25 minutes. You **cannot** stop the survey and restart later, so be sure you have enough time before starting.

Each time you are asked, answer all of the questions as best you can using the information you have at the time. There is no right or wrong answer.

To get started, click the big arrow on the right. If you don't think you have enough time and would like to start the survey later, just close this browser window and re-click the email link when you are ready.

Thank you.

[QUALIFICATION QUESTIONS]

1. First, are you over the age of 18 and registered to vote in the state of California?

	Total	White	Latino
Yes	100%	100%	100%

2. I know it's a long way off, but what are the chances of your voting in the election for President, U.S. Senate, Congress and the state legislature this November -- are you almost certain to vote, will you probably vote, are the chances 50-50, or don't you think you will vote?

	Total	White	Latino
Almost certain	82.7%	89.7%	68.1%
Probably vote	7.8%	5.2%	13.7%
50-50	9.5%	5.2%	18.2%

3. **(REGISTERED REPUBLICANS ONLY)** (602 respondents) As you may know, in June there will be a primary election in California for President, U.S. Senate, Congress and the state legislature. What are the chances of your voting in the REPUBLICAN primary election for President, U.S. Senate, Congress and the state legislature: are you almost certain to vote, will you probably vote, are the chances 50-50 or don't you think you will vote?

	Total Rep
Almost certain	78.9%
Probably vote	12.6%
50-50	8.5%

4. Do you approve or disapprove of the job being done by Barack Obama as President of the United States?

33. The new national healthcare law requires that organizations' health plans cover preventive services, such as contraception. Some organizations that provide health insurance coverage to employees, such as the Catholic Church, oppose offering contraception. The Obama administration has modified the plan so that religious-affiliated employers are not obligated to pay for contraception coverage for their employees; however, their insurers will have to provide contraception to covered workers at no additional cost. Do you support or oppose this modified plan that allows religious affiliated employers to opt out of paying for contraception and, instead, requires insurers to provide contraception coverage?

Now you will be asked about a different topic.

35. **[SPLIT A] [989 respondents]** Thinking about California's economy, do you believe the state economy has already bottomed out and is starting to improve, is at the bottom but is not yet getting any better, or has the economy not yet bottomed out and will still get worse?

	Total	White	Latino
Already bottomed out and starting to improve	28.0%	29.2%	27.4%

36. Now you will be asked about something a little different. As you may know, California has a total annual general fund budget of around \$90 billion. Currently, the state of California faces a budget deficit of about \$9 billion that has to be closed. You will read a pair of statements about the California budget and economy. After you read the pair, please state whether the FIRST statement or the SECOND statement come closer to your own view, even if neither is exactly right. Which statement comes closer to your view?

	Total	White	Latino
In order to protect funding for schools, healthcare and public safety, we need to combine spending cuts with some tax increases to strengthen California in the long run.	35.1%	35.9%	29.3%
Our taxes are already too high and we're losing the competitive edge for jobs and businesses to other states. The budget should be balanced by cutting from government programs.	38.5%	42.7%	33.5%
Both	14.1%	13.0%	16.5%
Neither	5.6%	3.9%	8.5%
Don't know	6.7%	4.3%	12.3%

37. Do you feel STRONGLY about your previous answer, or not so strongly?

	Total	White	Latino
Spending cuts, tax increases STRONGLY	27.1%	28.5%	21.3%
Spending cuts, tax increases NOT SO STRONGLY	8.1%	7.4%	8.0%
Taxes already too high NOT SO STRONGLY	6.2%	5.7%	7.0%

Neither	5.6%	3.9%	8.5%
Don't know	6.7%	4.3%	12.3%

Now for something different. Some people have offered various proposals to help pay for certain services and fund certain programs. You will now read a list of some of these proposals. For each one, please state whether you favor or oppose that proposal and whether that is strongly (favor/oppose) or somewhat (favor/oppose)?

38. One proposal increases the state sales tax by one-quarter of a cent for four years and increases the state income tax rate for people earning more than \$250,000 a year for seven years, gradually increasing the rate for higher incomes, with a three percentage point increase on those earning more than \$500,000 a year. As much as \$7 billion a year would come from these new taxes. The money would go toward public schools and community colleges and to local governments for their new public safety responsibilities. Do you favor or oppose this proposal?

39. California’s Attorney General has prepared an official Title and Summary for the proposal just described in the form of a statewide initiative. Please review the Title and Summary for this initiative.

The title reads: **Temporary Taxes to Fund Education Guaranteed Local Public Safety Funding. Initiative Constitutional Amendment.**

- Increases personal income tax on annual earnings over \$250,000 for seven years.
- Increases sales and use tax by 1/4 cent for four years.
- Allocates temporary tax revenues 89 percent to K-12 schools and 11 percent to community colleges.
- Bars use of funds for administrative costs, but provides local school governing boards discretion to decide, in open meetings and subject to annual audit, how funds are to be spent.
- Guarantees funding for public safety services realigned from state to local governments.

Summary of estimate by Legislative Analyst and Director of Finance of fiscal impact on state and local government:

- **Increased state revenues over the next seven fiscal years. Estimates of the revenue increases vary--**from \$6.8 billion to \$9 billion for 2012-13 and from \$5.4 billion to \$7.6 billion, on average, in the following five fiscal years, with lesser amounts in 2018-19.

- **These revenues would be available to (1) pay for the state's school and community college funding requirements, as increased by this measure, and (2) address the state's budgetary problem by paying for other spending commitments. Limitation on the state's ability to make changes to the programs and revenues shifted to local governments in 2011, resulting in a more stable fiscal situation for local governments.**

After years of cuts to essential services, this measure will help balance the budget and allow California to invest in our future. It asks the wealthiest Californians to pay their fair share so we can prevent further cuts to education and public safety and contains strict accountability measures so that we can be sure the money goes where it says it will.	23.6%	23.5%	22.5%
At a time when California's economy is struggling to recover we need tax policies that encourage small business growth and make our state a more attractive place to business. Our state legislature simply wastes too much taxpayer money and we need to reduce waste and inefficiencies in state government before we enact the largest tax increase in state history.	32.3%	38.1%	20.5%

41. Another proposal would increase the state income tax rate for 12 years, starting with people earning more than \$7,000 a year, gradually increasing the rate for higher incomes. Up to \$11 billion that would come from these new taxes would go toward public schools and early childhood education programs and help pay down the state debt. Do you favor or oppose this proposal?

54. Let's talk about pensions for public employees for a moment. Which statement comes closer to your own view?

[SPLIT A] [989 respondents]

People say that public employees like teachers, police, and firefighters didn't create the problem with the pension system, politicians did. These workers did their jobs and made their contributions to their pensions, and this is the only retirement some of them get because they are not eligible for Social Security. Let's find the funding to give our public employees the pensions they deserve and not cut from those who can least afford it.

People say that public employees' pensions are bankrupting California and costing taxpayers millions of dollars, and we need to fundamentally change the system now so it is fair to taxpayers. We already face an \$85 billion deficit in the pension fund over the long term and it is putting a huge burden on local and state governments when they can least afford it. We can't continue to ignore this issue when our debts keep piling up year after year.
